

Short explanation of the game:

Each turn you are given seven letters to form words for as many points as possible. The nice thing is that your opponent has the same letters and also tries to score as many points as possible. That makes WordCrex unique.

How do I start a game?

Press “create a new game” and choose random game and we will find an opponent for you. You can also invite 1, 2 or 3 WordCrex players to start a game.

How can I see the words that my opponents played?

Press the score at the top of the game board and you will see an overview of all words played.

How do I choose a word list?

Press the flag.

Which word lists are available?

Most word lists are provided by Keesing. Except Dutch where you can choose between a word list with abbreviations that you can say like IQ, CD and DVD or the official Van Dale Scrabble® word list. English where you can choose between SOWPODS or TWL. Swedish with the SAOL dictionary. Danish with the official Danish Orthographic Dictionary. Norwegian with the NSF word list.

What must I do when I can't form a word with the available letters?

When all players skip their turn you will get new letters. You can skip your turn two times in a row. When players skip three times in a row the game will end. If there are less than 10 letters left in the game and all players skip their turn, the game ends and the one with the most points is the winner.

How is the strength of a player shown?

A player's strength is represented by Crexes (birds). This indication of strength is based on a calculation, where you earn more points when you beat a stronger opponent than a weaker opponent.

The intervals are as follow:

Up to 1200 points = 1 Crex

1200 to 1499 = 2 Crexes

1500 to 1799 = 3 Crexes

1800 to 2099 = 4 Crexes

2100 to 2299 = 5 Crexes

2300 to 2499 = 5 Crexes Bronze

2500 to 2999 = 5 Crexes Silver

3000 and more = 5 Crexes Gold
